4. Private Tutors in the Community

Off Campus

Some students want a standing weekly session, help outside our posted hours, or sustained work on one course. The tutors below offer that privately. **Each sets their own rate**, and you arrange times and payment with them directly.

TUTOR	COURSES	RATE
Camille Wagenman camille.wagenman@svu.edu (937) 516-9472	All but MAT 106	Set by tutor

Please read. These tutors are **independent** — they are not necessarily employed, supervised, or screened by Southern Virginia University, and the university neither sets nor collects their fees. Rates are set by each tutor at their own discretion, and all scheduling and payment is arranged directly between you and the tutor. Listing here is not an endorsement.

Every resource on the first page of this flyer is free.

Are you a tutor? Currently enrolled students, alumni, and community members are all welcome on this list. Send us your name, the courses you cover, and how students should reach you.

The list is refreshed each semester.
