

Drill Station: Section 2.4

General Strategy to Solve Linear Equations

1. Solve the linear equation. Show your work. $5(8 + 6p) = 0$ Sec: 2.4	2. Solve the linear equation. Show your work. $8(6t - 5) - 35 = -27$ Sec: 2.4	3. Solve the linear equation. Show your work. $9(2m - 3) - 8 = 4m + 7$ Sec: 2.4
4. Solve the linear equation. Show your work. $-(w - 12) = 30$ Sec: 2.4	5. Solve the linear equation. Show your work. $8(9b - 4) - 12 = 100$ Sec: 2.4	6. Solve the linear equation. Show your work. $9(6a + 8) + 9 = 81$ Sec: 2.4
7. Solve the linear equation. Show your work. $-6 + 6(5 - k) = 15$ Sec: 2.4	8. Solve the linear equation. Show your work. $\frac{1}{4}(20d + 12) = d + 7$ Sec: 2.4	9. Solve the linear equation. Show your work. $-3 - (m - 1) = 13$ Sec: 2.4
